OSCAR Open Source Electronic Medical Record Demonstration

The BC OSCAR User Group and OSCAR Canada Users Society invites you to come and hear about OSCAR, the (free) open-source Electronic Medical Record (EMR) being used by hundreds of clinicians in BC. OSCAR users will demonstrate the EMR, including use with voice recognition software, tools for maternity and newborn care, leading chronic disease management tools, prescribing tools, billing and much more!

OSCAR is an open-source (free), community based, Canadian EMR, developed by a collaborative community of programmers and users. Users pay no licensing costs and have the freedom to choose from a range of support companies. There are over 1,500 OSCAR users and over a million patients on the system nationally, and it has won several prestigious awards for IT innovation. Ease of use, excellence in programming, high level of functionality, and low costs for ongoing support and implementation, are part of why OSCAR is experiencing rapid growth. For more information visit http://www.OSCARcanada.org

Where:
Paetzold Auditorium VGH,
Jim Pattison Pavilion on the 1st floor
(Parking is available at 2775 Laurel St, between 11th and 12th)
